

Assignment Two: How Sweet Is This

Due: Week 11 @11:59pm

Description:

Most people have a sweet tooth, so for this assignment you will need to use everything you have learnt so far to create an engaging and appetizing home page for your favorite candy.

Submitting Your Work:

Please read and follow the instructions carefully.

- Upload the assignment folder to your GitHub repository. If the repository is public then just the link is needed, if the repository is private then you must also send an invitation to me as a collaborator.
- Upload the assignment folder to your Lamp Stack.
- Provide the links to both your GitHub and Lamp Stack to the Blackboard submission.

Please note that .rar files and email submissions will not be accepted, and the late policy of minus 20% daily will be applied to all late submissions.

Instructions:

Please read and follow the provided instructions carefully:

- Choose your favorite candy.
- Visit some online sources to gather the content (text & images) you will need for your homepage. There should be no ipsum content used.

- Create the structure of the home page using HTML. Your page should:
 - Contains all the required metadata.
 - Use semantic elements where appropriate.
 - Use the correct HTML content elements.
- Use different types of media to help encourage user engagement. Some ideas:
 - Images
 - Embedded video
 - SVG's
 - Etc.
- Use at least 2 different custom fonts.
- Style your home page using CSS, your CSS should be in a separate CSS file ... No inline or embedded CSS should be used.
- The home page needs to be responsive on all the major viewports.
- Include some enhancements to add some user interactions. Some ideas:
 - Gradient backgrounds
 - Multi-layered background images
 - Some cool hover effects
 - Maybe even an SVG!
- Create a footer that includes the company logo, company information, and a quick contact form.
- Comment your HTML & CSS.
- Validate your HTML.
- Validate your CSS.

Evaluation:

Below you will find a breakdown of the mark for the assignment. This will be attached to your grade on Blackboard.
